The materials:

During the course the participants will work with enormous banners used in public places for commercial purpose. The substance of the molinos: looped polyester textile with PVC coating on both sides. Two types exist: the full and the mesh structured banner. Our group uses these materials systematically for well designed and completely recycled objects.

Schedule:

The first meeting will be held on the 6th March, afternoon, the day when participants arrive in Budapest. After the official opening ceremony, participants will have the opportunity to get to know each other better, then listen to Medence Csoport' presentation on their works and have dinner together. On the following days of the workshop the programs will be held between 10AM and 6PM with lunch breaks included. The last day will be the 14th March, in the morning with closing ceremony, handing out of the confirmation and the certificates of the attendance. Afternoon - departure of participants.

Characteristics of the course:

- Number of participants: 20
- Price: free for 20 applicants (travel, accommodation and meals are included)
- Extra curricular activities included

The participants of the workshop arrive from a wide range of countries, with different backgrounds, experiences and skills. They put together what can be learnt from each other and how this knowledge can be implemented in their home countries. By the end of the course the participants will improve their knowledge in the field of creative recycling, might use the experience they accomplished by the training and the recycling attitude can be their every day task.

Request information about this course:

If you wish to apply for this workshop, please send your motivation letter with personal information in it (name, address, schools, work places) via e-mail or post.

Deadline: 3rd January, 2011.
